We build customised forklifts

SO M 20959, GH 5000 SO, Load capacity 3000 kg, Board form length 1500 mm, Board form width 900 mm, Lift height ca. 135-245 mm, with attached rotating and pivoting table for holding engine blocks

SO HU 61019, HUY 1502.2, four way jack lift, Load capacity 1500 kg, Fork length 1120 mm, Fork load width 850 mm, lifting height longitudinal movement ca. 85-165 mm, lifting height transverse movement ca. 170-220 mm

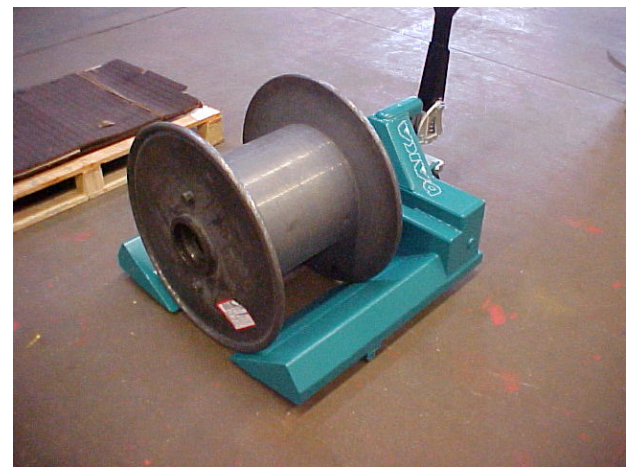

SO HU 60695, HU 2301.00-SO, battery swap lift with two attached roller conveyors, Load capacity 600 kg, Fork length 1000 mm, Fork load width 520 mm, with lateral supporting rollers

SO HU 63506, HU 2000-SO, platform jack lift, Load capacity 1500 kg, Board form length 4500 mm, Board form width 380 mm, platform with rubber support, Lift height ca. 112-217 mm, wheel brake and parking brake (drum brake), spring-born support rollers

SO HU 59336, HU 3002.3 BR, Load capacity 3000 kg no load capacity reduction, Fork length 3000 mm, Fork load width 520 mm, Fork width 152 mm, Lift height 85-195 mm, with mechanical wheel brake and parking brake

SO HU 60880, fork jack lift for round parts, cable drums here Ø 630 mm, Load capacity 2000 kg, Width ca. 770 mm, Fork length 600 mm

SO HU 59954, Hand pallet trucks with load frame, Load capacity 2000 kg, Fork length 910 mm, Fork load width 480 mm, Lift height 85-195 mm, Lifting height with load frame 190-300 mm

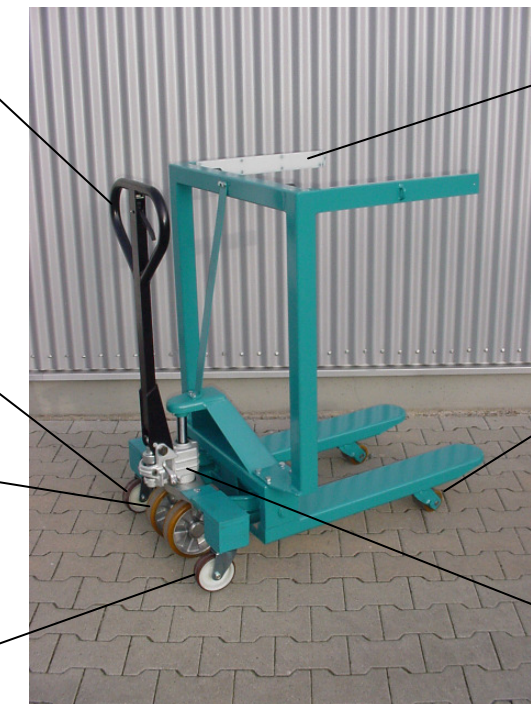

SO HU 60420, HU 3002.7 SO, Load capacity 3000 kg, Fork length 1800 mm, Fork load width 580 mm, Lift height 85-195 mm, with mechanical wheel brake and parking brake, hydraulics with exact lowering with set screw on the hydraulic
